

## **Product Overview:**

Green City AAC PanoEye is a software for IP Camera and NVR to achieve the 360° view of Video Surveillance. It includes all of the necessary components for viewing, recording, and controlling of recorded sequences through digital PTZ over the TCP/IP network.

## **Features:**

1. It is a three dimensional virtual-reality technical surveillance system.
2. Each camera's video has runs on the camera's maximum resolution; all in High Quality Jpeg/Motion Jpeg compression.
3. 360° Ceiling-Mount, 180° or 90° Wall Mount provide the panoramic viewing without any blind spot.
4. PTZ control with full features with no mechanical movements from the cameras.
5. Easy to install and maximum resolution up to 256 Mega pixel.
6. Compatible with all WIN32 platforms: Windows 98, ME, XP, NT 4.0, 2000, 2003, Vista and Windows 7.
7. Equipped with motion detector enable to save your disk space of NVR.
8. Export DVR file(s) and snap shot(s) to single EXE file with Win32 platform portable and executable file.
9. Control Panel Styled User Interface is easy to learn and operate. No multifarious GUI control buttons and toolbars occupying the viewing screen. Every feature is controllable through the mouse.
10. Individual Dual Screens are supported, maximizing your monitoring area.
11. Multiple types of lens are supported e.g. Fisheye Lens, Wide Angle Lens, and 360 degree Convex/Concave Mirror.
12. Real-Time PTZ control, No internet/RS232 transmission delay (1 ~ 5 Seconds).
